Does this organization provide care and/or education to children?

This website is designed to serve a wide variety of organizations in the early learning and school-age care field. Some organizations work directly with children while others work with the adults who educate and care for children, and still others work in the community more broadly. Your organization may do more than one of these. In this question, we want to identify whether your organization provides care and/or education directly to children. Your organization may also provide other supports and services, but please indicate here whether one of the supports your organization regularly provides is direct care and education to children.
